

A BIG FIRM FAILS  
AT NEW YORK CITYBREWSTER & COMPANY MAKE  
AN ASSIGNMENT.

Proprietors of One of the Best Known Carriage Manufacturers in the Country—No Statement of Liabilities and Assets Made—Failures of the Week in Dun's Report.

New York, Oct. 12.—Brewster & Company the noted carriage and wagon makers made an assignment today for the benefit of their creditors. No statement of the liabilities and assets was made.

New York, Oct. 12.—R. G. Dun & Co.'s weekly review of trade says:

"The price barometer gives indications that are not entirely favorable. Cotton goods go up with increasing evidence that the crop of cotton is short. Prices of other manufactured products, of wool, hides and leather, all show some decline, a general abatement in new orders being the principal cause.

"With an immense volume of business, not much exceeded in the largest month of the exceptional year 1892, and with evidence that in several important branches the volume has surpassed that of any previous year, there is a growing uncertainty about the near future of industries.

"Money markets are neither strained nor threatening, foreign exchanges no longer raise apprehension, and fears for the great Northwestern crops are past. There have been few advances of wages of labor during the past month, and only a few works have been closed by strikes for an advance.

The production of pig iron, Oct. 1, was the largest in the history of the country, 201,414 tons weekly, against 194,029 Sept. 1, 196,000 having been the highest in 1892. Stocks unsold are not stated, but substantially the whole production is in execution of past orders. On the other hand, new orders are exceedingly small. Bessemer pig has fallen 1¢ to 15¢ at Pittsburgh, and gray forge 25 cents, and prices of iron products average 1½ per cent lower for the week. Discontinuance of a demand, which could not be expected to continue at the same rate after prices had risen 52.9 per cent, leaves actual consumption in question.

"In woolen manufactures a demand for dress goods and some specialties keeps many employed, but most of the works making men's woolsens, for which new orders are scanty, find not enough to keep them running. To pile up goods in advance, wholly in the dark as to future foreign competition, involves such risk that some concerns may close for a time. Yet sales of wool continue heavy, 11,349,200 pounds for the week, largely speculative.

"The cotton manufacture is peculiarly favored in the rise of materials and by the extraordinary stocks of cotton brought over from last year, but goods are advancing, those quoted last week now averaging 90.8, against 87.5 per cent of the prices of 1890. It is too early for cotton movements to cast much light on the probable yield. Port receipts thus far, 23 per cent smaller than last year, do not indicate as small a crop as many feared, in view of the known lateness of picking. Widely circulated advices to hold back cotton have some influence also. At present prices, averaging 8½ cents in Southern markets, against 5½ cents a year ago, 7,000,000 bales will bring \$13,000,000, more than 9,900,000 bales brought last year.

"Wheat receipts have been 7,531,474, against 4,690,181 last year, and Atlantic exports only 1,707,629 bushels, flour included, against 1,998,786 last year. The movement at Duluth is so heavy as to absorb vessels and almost arrest more shipments.

"Failures for the week have included two banks and several concerns of some size, and have been 268 in the United States, against 231 last year, and fifty-two in Canada, against forty-three last year."

Bradstreet's says: "Exports of wheat (wheat flour included as wheat) from both coasts of the United States this week amount to 2,244,000 bushels, compared with 2,613,000 bushels last week, 3,317,000 bushels in the week a year ago, 2,862,000 bushels two years ago, and with 3,625,000 bushels three years ago."

INSULTED THE EMPEROR.  
Herr Liebknecht to Be Arrested for an Incendiary Speech.

Breslau, Oct. 12.—It is reported that Herr Liebknecht, president of the socialist congress, will be charged with lese majeste on account of remarks contained in his inaugural address to the congress delivered last Monday.

Herr Liebknecht remarked on that occasion that no matter how many bayonets were at the disposal of those who wished a trial of strength with the socialists, if the people wanted a fight the social democrats were their men. He went on with a direct defiance to the emperor, referring to the latter's anti-socialistic speech in harsh language.

WRANGLE OVER DEBS.  
Illinois Federation of Labor Does Not Like His Assertions.

Peoria, Ill., Oct. 12.—The thirteenth annual convention of the Illinois Federation of Labor adjourned at 4 o'clock yesterday afternoon. It was decided to hold the next convention Nov. 14, after the election. The Debs matter came up shortly after the convention met, and was followed by a discussion lasting for fully two hours. The following, introduced by W. C. Pomeroy of Chicago, was finally adopted: "Whereas, Eugene V. Debs has stated to the public that the railway brotherhoods had been repudiated by organized labor, Resolved, That the Illinois State Federation of Labor deny such assertions and extend to the railway brotherhoods our approval and assurance of continued esteem." A resolution was adopted indorsing the administration of Governor Altgeld and thanking him for services rendered the federation. The garnishment law of the state was condemned. The question of child labor was referred to the executive officers to co-operate with the factory inspectors or any other bona fide organization to prepare a bill to be presented to the fortieth general assembly. The platform demands the abolition of the land monopoly and calls for a state constitutional convention.

Arkansas Law on Prize Fighting.  
Hot Springs, Ark., Oct. 12.—Since the question of the legal aspects relating to the Corbett-Fitzsimmons contest has been raised, and the possibility of official interference, much interest attaches to the state law relating to pugilism. The law is plain and easy of interpretation. The statute is as follows:

"Section 1842. It shall be unlawful for any person to fight a prize-fight, either with or without gloves, in the state of Arkansas, and it shall be unlawful for any person to act as second or referee at any prize-fight in this state or by otherwise participating in same." The fine is not less than \$1,000 nor more than \$2,500.

The general sentiment of the people of Arkansas does not seem to be antagonistic to pugilism, there having been a statute making glove contests a felony prior to the enactment of the above act, which was changed by an almost unanimous vote. Local sporting men think the fight will come off here as billed, Oct. 31.

Hayward Intended to Escape.  
Minneapolis, Minn., Oct. 12.—It is believed that Harry Hayward, sentenced to hang for the murder of Catherine King, intended making his escape last evening. The officials made a search of his clothes, and in a small belt buckled around his body was found a full cipher and \$1,200 in money. The key to his cell, which was secured by the authorities, was furnished by Mrs. Hayward, from whom the detective got it, under pretense of being in the confidence of Hayward. It fits the door exactly. Hayward was dumbfounded when he found that the sheriff was aware of his plans, but offered no resistance to the search.

Chicago Thief Arrested in Mexico.  
City of Mexico, Oct. 12.—It became known yesterday that Van Bokken, the Chicago bank employee, who, a week ago, decamped with \$30,000 in cash, came to this city. Indiana Epworth League in Session.  
Evansville, Ind., Oct. 12.—The state conference of the Epworth league is in session here, having begun Thursday night with a welcome to the delegates, of whom there are several hundred in attendance. Miss Josephine Tingley, a deaconess of Chicago, delivered an address upon the work of deaconesses. She denied the truth of the assumption that deaconesses were on the same plane with nuns, and said they were merely women who felt they had a mission to perform and cheerfully devoted their lives to nursing in hospitals without wage or emolument. She gave an outline of the work of the deaconesses in hospitals, jails and training schools.

The name adopted several days ago for the new organ of the Young People's alliance, the Evangelical Alliance Messenger, was changed to the Evangelical Herald.

FIRE ON AN AMERICAN.

The Steamship Alene Chased by a Spanish Gunboat.

Halifax, N. S., Oct. 12.—The mail steamer from Kingston, Jamaica, brings an account by an American citizen, who was a passenger on board the steamship Alene, of the Atlas line, from New York to Kingston, of the firing upon it by a Spanish gunboat while passing the eastern end of Cuba Sept. 26. The American says in part:

"The gunboat was a mile from the island when first seen, evidently lying in wait for vessels intending to land with ammunition for the revolutionists. The Alene kept on her regular course, passing abreast of the gunboat, two miles distant. When slightly south of Cape Maysi lighthouse the report of a cannon was heard and a cloud of smoke was seen issuing from the port bow of the gunboat. Capt. Seiders, thinking that it was nothing more than gun practice, kept his course. After an interval of ten minutes a second puff of smoke was seen, followed by another report of the gun. The captain then knew it could not be practice, and the Alene was at once put about and came to a full stop.

"Instantly upon seeing the Alene heave to, the gunboat started at half speed, heading directly for the merchantman. As she advanced she fired a third shot. This was at least ten minutes after the Alene had swung around and was apparently without the slightest reason, for Capt. Seiders was prompt in observing the international regulations of the merchantman in hoisting the signal inquiring if the Spaniard wanted to communicate or come on board. Without replying or manifesting the slightest intention of recognizing the signals the gunboat continued steaming slowly on until a little over a mile away, when, turning her bow to the starboard, she made for the nearest headland, increasing to full speed, evidently disinclined to come nearer or give any explanation of her action."

De Lome Has a Conference with Olney.  
Washington, Oct. 12.—It is learned that Senor de Lome, the Spanish minister, had a short interview with Secretary Olney Thursday, and in the course of their conversation said operations in Cuba would be conducted with greater vigor hereafter. It may be set down as beyond belief that Secretary Olney has made a statement to the Spanish minister in the nature of a threat to intervene between the combatants in Cuba at this stage.

HAS NOT HELPED HIS CASE!

Durrant Leaves the Witness Stand After Three Days' Examination.

San Francisco, Cal., Oct. 12.—After a three days' ordeal Theodore Durrant yesterday left the witness stand. District Attorney Barnes tried again to draw from the defendant admissions that he was well acquainted with the use of bromo seltzer as used in medicines. Durrant's replies indicated that he had devoted the night to a study of the compound, as he replied that he had conversed with Dr. West about it in the jail Thursday evening. He was able to give its analysis and detailed its pathological effect. For the first time during the trial Durrant pleaded ignorance. In reply to a question by Mr. Barnes he said he did not know what an alibi was until after his trial began. While testifying yesterday the prisoner became badly confused at times.

A crowd of people attempted to lynch the woman and were prevented with great difficulty.

Minneapolis, Minn., Oct. 12.—In the house of deputies of the Episcopal triennial convention yesterday a message from the house of bishops announced that it had chosen Louisville as the next place of meeting and asked concurrence in the appointment of a committee of conference. The house at once concurred. The conference committee reported in favor of Washington as a compromise. A resolution was offered by the Rev. Dr. John S. Lindsay of Boston calling for a full report of the joint commission at 3 p. m. yesterday. Dr. Hoffmann said that the commission would be glad to report at the earliest possible moment. Daily sessions were being held, and only one canon remained to be acted upon. The commission hoped to be able to report on Monday. The deputies finished up their work on sections 4, 5 and 6 of the revised constitution without making important changes. The house of bishops received reports of the committees on foreign and domestic missions, the former recommending no action on the memorial from the convocation of Kyoto, Japan, and the latter recommending the creation of the missionary district of Duluth in northern Minnesota. The resolutions were made successive orders of the day.

St. Paul May Lower the Record.

New York, Oct. 12.—The steamship Fuerst Bismarck sighted the St. Paul at 9 o'clock Thursday morning when she was twenty-one hours out from New York. Her position was latitude 41.20, longitude 64.20. This was 445 miles east of Sandy Hook. Allowing one hour for the difference in time the St. Paul was out twenty hours and making twenty-two and one-fourth knots an hour. The record between New York and Southampton is held by the Fuerst Bismarck, and is 6 days 10 hours and 55 minutes. If the St. Paul keeps up a speed of twenty-two and one-fourth knots for the entire trip she would lower the record to 5 days and 22 hours, but no one expects so much as that.

ADVICE FROM DE LOME.

Spanish Minister at Washington Cables His Government.

Washington, Oct. 12.—The statement cabled from Madrid that the United States government had intimated to the Spanish minister here that there was need of prompt action on the part of his government in putting down the Cuban insurrection cannot be confirmed at the state department. The officials would

neither confirm nor deny the report, though their manner would indicate disapproval of its accuracy. It is believed quite probable that representations may have been made to Spain of the wisdom of aggressive and active operations against the Cuban insurgents, but it is thought the United States government did not make these suggestions, and that if made they came from Minister de Lome and were based on his personal views of the situation and on his observation of the trend of sentiment in the United States and his knowledge of the purpose of the friends of the insurgents to press their cause vigorously soon after the assembling of congress.

MUST NOT HELP CUBA.

Washington, Oct. 12.—Attorney General Harmon within the last few weeks has received a large number of letters making inquiry as to the rights of American citizens under international law with respect to expressing their sympathy with Cuba, either materially or otherwise, in her present struggle. The following is a reply to one of these letters, which is substantially the same as all of the inquiries sent in: "I hasten to say in reply to your letter that the organization of a military force of any sort in the United States in aid of the insurrection in Cuba would be in direct violation of the laws (section 5,236, revised statutes), providing for a fine not exceeding \$3,000 and imprisonment for not more than three years for every person who in any way takes part in such expedition or enterprise to be carried on from thence against any prince, state, etc., with whom the United States is at peace."

## SPRING BROOK NEWS CHOPPED UP FINE

### A TRAMP WORKS THE "SORE ARM" GAME.

Street Car Ran a Cow Down—A Big Squash Raised—Buob's Pond Is Filling Up, Insuring a Big Ice Crop—Water Cress Proliferous—Other Interesting News Notes.

Spring Brook is nothing if not metropolitan, and has the "latest out" in all particulars. This is true of their tramps also. A young looking man has tried his best to work the "sore arm dodge" in that vicinity, but without any great degree of success. He first made his appearance at the grocery store of Samuels & Kuehn, saying that while working in the pineries he accidentally caught his arm in a jack-screw, crushing it. His main plea was that he must have money. Then he crossed the road to the Spicer home where he told them his arm was in bad shape from being scalded.

CAR number three struck a cow at Spring Brook the other day, but no particular damage was done except that the iron dashboard of the car was bent. The accident occurred while the car was descending the hill at the foot of Main street. While rounding the sharp curve near the bridge a dark object was seen in the thick willows. Motorist Collinsworth accordingly took little notice of it but soon a jolt announced that they had struck it and "it" was a cow. The animal was knocked into the ditch but was not hurt.

A SQUASH is on exhibition at the grocery store of Samuels & Kuehn that ought to have been at the fair. It was raised on the premises of C. Sinnamon on the McKee boulevard, and weighs sixty-two and one half pounds.

Or late, the water cress about the creek has been unusually fine for this time in the year and hotel and restaurant keepers have been gathering it in.

ALL the weeds have been removed from Buob's pond, and it is now slowly but surely filling up with spring water, insuring a good supply of ice.

Already Coming Into Favor

We knew this shoe would catch the ladies for the reason of its excellent qualities. Every day we show that special \$2.50 dongola kid shoe to a great many ladies, and so far none of them have studied long before deciding to buy. The beauty of this shoe is that it looks well on any foot. It has the points embodied in a high priced shoe, and yet only costs \$2.50. A. Richardson Shoe Co.

## OLD TIMES HELD MORE OF JOY High School Freshmen Don't Think All Modern Improvements Improve.

It may be the "new woman" high school freshmen will debate next. Yesterday afternoon it was the "new times." This was the question: "Resolved, That the old times were more social and home-bred than the new."

Robert Haskins led the affirmative and had to back him, Morgan Wise, Phillip Casford, Ethel Wasgate and Imogene McDonald.

The negative arguments were made by Collin Samuels, Minerva Fisher, Henry Carpenter, Arthur Anderson and John Hemming.

The debate was a hot one. The facts brought and bore on everything from electric fire kindlers to negro supremacy in the south. After all had been said that time would allow a decision was given for the affirmative, the vote standing two to one. Professor D. D. Mayne and Misses Paulson and Hadden were the judges.

### LEOTTA IS A FINE ENTERTAINER.

Her Talents Cover a Wide Range and Please Her Audiences

Leotta, who faced a Janesville audience for the first time at the Myers last night, is by far the best elocutionist who ever appeared in the Bower City, although her audience was not of a size to indicate that fact. Her talents cover an exceptionally wide range, and she is strong in all the characters assumed, as well as exceedingly natural. Whether she recites Shakespeare's heaviest lines or Riley's lightest verse, the effect is the same, and a pleasing personality adds charm to her perfect entertainment. If the audience was what it should have been Leotta would have appeared before a packed house.

### MRS. DERHAM'S HUSBAND STICKS WILL STAND BY HIS WIFE UNTIL "THE LAST DOG IS HUNG."

W. H. Derham, husband of the Mrs. Derham who is charged with abducting Maud Medlar of Rockford, says that he is "going to stand by his wife until the last drop of blood in his body was gone."

"I have heard my wife's side of the affair," continued Mr. Derham, "and what has been printed about her inducing Maud Medlar to run away with him is all wrong. She tried to get her to come back after they met at Janesville but she wouldn't. My wife is not to blame and her side of the story will come out at the trial, if they have one."

While running at full force the chain that runs the elevator broke and before the machinery could be stopped, the woodwork of the elevator was somewhat damaged. Aldermen Inman and Hemming looked at the crusher yesterday and say the damage is slight.

## IS VURTESON ONE OF THE CHICAGO PAIR?

### POLICE HAVE AN IDEA AS TO THE CHECK PASSER.

Think It Possible That He Is One of the Eckstrom Brothers Who Are Now in Jail in the World's Fair City for Swindling—Used Morphine Freely.

Is Frank Vurteson, who is charged with having gotten the money on a forged check for \$75, one of the Eckstrom brothers who is now in jail in Chicago charged with swindling and forgery? The Janesville police have asked each other that question a good many times lately and are inclined to think that perhaps such is the case. Eckstrom and his brother registered at the Chicago hotel on coming from Janesville.

Vurteson, or whatever his name is, seems to have been quite a smooth gentleman, even if he did use morphine.

The illness for which Dr. J. F. Pember treated him arose from the use of this drug. When Vurteson first tried to cash the check he was able to do so, and got Talbert and Dr. Pember to go to the bank with him. The doctor told Teller J. L. Croft that he knew nothing about Vurteson except that he had treated him. Teller Croft was not satisfied with such identification and as the doctor refused to be responsible for any further statement, Mr. Croft said he would send the check to Milwaukee for Vurteson and if it was all right he could come and get the cash. Vurteson was not satisfied with that arrangement, so Talbert got the check cashed at Isah's saloon for him.

**IS IT AN HONEST SURPLUS?**  
How about that surplus reported for September?  
Is it honest?

An analysis of the statement reveals the curious fact that the expenditures for September were smaller than those for any preceding September in recent years, which surely looks suspicious in the absence of anything to show that the needs of the country are less now than they were at the same time a year or two years ago.

Moreover, the September receipts do not show any gains over those of August or July, and are only \$1,300,000 above the average monthly receipts for the year.

These discrepancies may not signify that the reported surplus of \$3,000,000 was secured by arbitrary, technical and deceptive means; and it is certainly to be hoped that such is the truth.

Nevertheless, when it is remembered that the expenditures for June were cut down 20 per cent. below those of any former month for several years by methods of that kind, in order to show a surplus for the last month of the fiscal year, the average citizen may be pardoned for suspending judgment in the case, to say the least.

**OVER-CONFIDENT.**  
These are republican times, but when the returns are all in from the elections four weeks hence, the republicans will realize that there is work ahead. The notion that they can elect anybody on any kind of a platform, next year, which has been prevalent in some republican circles, is absurd and mischievous, and the quicker the party gets rid of it and takes an intelligent view of the situation the better it will feel after the election thirteen months hence. The conditions are more favorable to the republicans than they are to the democrats but nothing short of the best possible selection of a candidate will give the republicans an assured victory. With all their advantages the republicans can not win with a standard bearer which the people have rejected or with a policy which the country has outgrown and repudiated.

**CAN'T MATCH THEM.**  
Europe doesn't produce anything to match the American life insurance companies.

In Rome a palace fronted by six of Caesar's sculptured columns bears the sign of a big New York concern.

Paris is red and yellow with American insurance placards, the reserve funds looking marvelously impressive when swelled out into francs.

London doubts Yankee stability, but has to admit the strong "talking points" of the American life policy.

And Germany—well, after trying in vain by various restrictions to handicap the American companies, the German government has decreed that they shall wind up their business in the empire by November 1. The edict is as good an advertisement of superior American methods as is the endorsement accorded everywhere else.

**WILL IT STAND.**  
Is that South Carolina trick constitutional?

The suffrage clause to be inserted in the new state constitution provides that the voter must be one "who can read a section of the constitution" to the satisfaction of the officers of the election, or who can explain said section when read to him to the satisfaction of said officers. Registration officers will thus decide who shall vote, and the black man must be a very Demosthenes to win his way to the ballot box.

Perhaps Mr. Cleveland will shake the main body out of that "vigorous foreign policy" now and give the people a chance to judge whether it has been over-advertised.

The further north he went, Lieutenant Peary says, the harder thin ice were frozen. That story of an orn polar sea no longer has the lieutenant's entire confidence.

The moon and the Blue Laws of Connecticut, were not all either b-

jectionable or unreasonable. For instance, this one: "Whoever publishes a lie to the prejudice of his neighbor, shall sit in the stocks or be whipped fifty stripes."

Democratic editors are trying to appear surprised because Speaker-to-be Reed has not consulted them about the make up of the house committees.

After reading the New York papers one naturally wonders how ex-Senator Platt ever finds any time to give to his express business.

Notwithstanding Senator Murphy's interests in the brewing line, he is credited with being out with Senator Hill.

Senator Hill probably wants license substituted for liberty, in the constitution of New York and of the United States.

Richard Croker toils not neither does he spin, but he owns race horses worth a fortune all the same.

The Monroe doctrine will be regarded with a good deal more respect by Great Britain after 1896.

The Atlanta folks can't make their show popular by exacting unpopular prices from visitors.

Who is responsible for the absurd incongruity of naming a warship after a saint, anyway?

**Women's Convention at an End.**  
Peoria, Ill., Oct. 12.—The first annual convention of the Illinois Federation of Women's clubs has come and gone. The final sessions were held yesterday and were the most successful of the meeting. There were a number of discussions, contests over the offices and interesting papers read and discussed. Miscellaneous business was then transacted, and at an early hour the convention adjourned sine die, and at night the delegates left the city for their homes. The voting resulted in the election of the following ticket on the first ballot: President, Mrs. Isabelle Laning Candee, Cairo; recording secretary, Miss Frances Le Baron, Elgin; corresponding secretary, Mrs. Clara M. J. Farson, Chicago; treasurer, Mrs. Mary E. Hawthorth, Decatur. Springfield was the only applicant for the next place of meeting, and was selected unanimously, after which a recess was taken for lunch.

**Capt. Forbes Dead.**  
Washington, Oct. 12.—Capt. Charles Forbes, a clerk in the war department, died here yesterday. He was in the box at Ford's theater the night Lincoln was assassinated, and it was into his arms the president fell when wounded. He was a civil-service clerk in the treasury when Robert Lincoln became secretary of war, and the latter had him transferred to the war department.

## A MANGLED LAD DIES AFTER DAYS OF PAIN

LITTLE OTTO KARL'S SUFFERINGS ARE OVER.

The End Came at the Palmer Hospital, Where He Has Been Since His Leg Was Cut Off by the Engine—Diphtheria Does Full Work—Other Deaths.

Little Otto Karl died at the Palmer Memorial Hospital this morning, and with his demise the spirit of a brave lad took its flight.

Young Karl is the only one who was so fearfully injured by the cars last Tuesday afternoon, his leg having been cut off close to his body by the Chicago & Northwestern switch engine. Although he was but ten years old, he showed wonderful endurance and told the trainmen to "put his leg back on." The surgeons saw at the time the hopelessness of the attempt to save the lad's life, and since his injury he has been in a critical condition all the time.

His death is a sad blow to his parents, Mr. and Mrs. Herman Karl, who live on First street, off of Center avenue in Monterey, and they will have the sympathy of all in their bereavement. Mr. Karl is a mason in the employ of James Shearer. The remains were taken to the family home this afternoon and the funeral will be held from the house at 2 o'clock Monday afternoon and from St. Paul's church at 2:30.

Died with Diphtheria.

Diphtheria has done sad work in the family of Mr. and Mrs. Herman Kruse, of this town of Janesville. Some weeks ago Kruse's little son died twenty-four hours after he was brought to the city to see a doctor, and the illness of several other children in the neighborhood followed. Dr. R. W. Edden had charge of the cases and succeeded in pulling the other patients through. After the quarantine had been removed by the town board of health, however, little Annie, the four year old daughter of Mr. and Mrs. Kruse, was taken sick with the disease, and despite all that Dr. Edden and Dr. Hughes who counseled with him in the case, could do, death claimed the little one last night. Mr. Kruse the father of the child is now sick with a diphtheric sore throat but whether or not his case will develop into the scourge cannot now be told.

W. E. Dillon Dead.

The death of Wentworth E. Dillon, one of the well known characters of this city, occurred last evening at the county farm. For some time past Dillon has complained of not feeling well and applied to Poor Master Kenyon last Thursday for help, saying that he was troubled with heart difficulty. Dillon worked during the past summer around Crystal Springs and was a young man well known about the city. The remains will be interred near the county buildings.

Charles Bennett, a pioneer resident of Magnolia, died yesterday morning, aged fifty-nine years. The funeral will be held tomorrow.

Joseph A. Grogan.

Death released the spirit of Joseph A. Grogan at 8:30 o'clock last night, after he had patiently endured an eight months illness with consumption, aged twenty-two years, his demise occurring at the family home, 301 South Academy street. This is the third time death has entered the household since last December and the family will have the tender sympathy of all in their bereavement. Four brothers and two sisters are left to mourn his loss, they being Thomas J. Grogan of Omaha, Neb.; Frank M. James E.; William H. Mary A. and Mrs. C. J. Roberts of this city. The funeral will be held from St. Patrick's church tomorrow afternoon at 2:30 o'clock.

JONES IN JAIL FOR THE WINTER

The Center Man Must Serve a Three Months Term.

Sheriff Appleby took Charles Jones of Center to jail for a winter's stay this morning. Jones was tried and convicted on a charge made by a young lady and today Judge Phelps sentenced him to pay all the expenses as well as the statutory sum for maintenance, in default of which he was to be confined in the county jail until the same is paid, or the defendant discharged by due process of law. Three months is the term provided for such cases so Jones will get out Jan. 11, 1896.

## TRAMP LURED A BOY AWAY FROM HOME

LITTLE JOHNNIE ANDERSON BECAME A PRUSHUN.

He "Batters" Cold Lunch, "Stops Up" on Ten Cent Whisky and Is Found Reeling Drunk in a Janesville Switch Yard—His Father Is Notified.

Johnny Anderson wanted to be a prushun—a real prushun.

So he ran away with Pacific Bailey. A prushun, be it known to those unversed in road slang, is the small boy who begs meals and money for a tramp. In exchange he gets an education in "slopping up," "truck riding" and tricks of the road.

Johnny delighted in banging around the railroad tracks, and when "Pacific" came along with two other tramps, they lured Johnny away easily with tales of the free life of the road.

That was two months ago. Johnny was an apt pupil. He learned to "batter" for cold victuals and nickels, became expert at jumping "blind fronts" and developed a thirst far beyond his tender years.

His tramp boss found him a source of profit for his childish face worked on the sympathy of women and made them free with their gifts.

Boy Was Reeling Drunk.

"Pacific" and the boy came to Janesville on a stock freight and dropped off down in the yards. When Chief Acheson found them last evening Johnny was reeling drunk. The men in the crowd were arrested but he got out of sight and escaped. This morning he went to the jail, however, and asked to see "Pacific."

"He's my half brother," he explained.

"Guess not," said Turnkey Griffey. "He doesn't look in the least like you."

Close questioning made the boy break down at last and he told the truth. T. A. Anderson of Hopkins, Minn., he said was his father. Chief Acheson wrote to Hopkins giving note of the boy's whereabouts. As for Bailey he was clubbed out of town and told never to come this way again.

The substitutes were: Philip Casford, W. Hamilton and Robert Hackett.

Beloit college football eleven beat Evansville high school by a score of 32 to 4 this afternoon.

LONG HAIRD BOYS IN A PULLMAN

Whitewater Football Players Travel Like Jay Gould Used To.

The Whitewater foot ball team were in the city last evening in their private car, they being on their way to Platteville, where they played this afternoon, their opponents being the same team that defeated the Janesville boys a week ago. The Whitewater team are giants when compared with the Janesville boys.

The game resulted in Platteville's favor, the score being 30 to 0.

The Beloit high school foot ball team were in the city today, on their way to Mineral Point.

"She's the flower of my family, sir," said the latter.

"So it seems," answered the young man. "Pity she comes off so, ain't it?" he continued, as he essayed another vigorous rub at the white spots on his coat sleeve.—Eric Messenger.

THE fact is not generally known that Janesville people can stop at the Tremont house, Chicago, at a rate commensurate with the times, \$2.50 a day, room and meals.

T. P. BURNS' cloak room would remind one of a bee hive today. It must be he is selling cloaks at a pretty close figure from the number of people seen in the store.

THE great ball game that was to have come off in Edgerton today has been declared off and the Janesville boys are much disappointed. Edgerton's crack pitcher, Sickles was not on hand causing the postponement.

## BELOIT NOW WANTS THE GREAT FIGHT

OFFERS \$100,000 AND GUARANTEES PROTECTION.

A \$20,000 Guarantee of Good Faith Put Up—It Is Proposed to "Pull Out" the Battle on an Island Half in Wisconsin and Half in Illinois.

Beloit has wanted many things, but never has she been accused of wanting a prize fight.

But she does now. The following special to The Gazette this afternoon tells the story:

Beloit, Oct. 12.—[Special]—Adam Bigbee, of this city, now comes to the front with an offer of \$100,000 for the Corbett-Fitzsimmons fight. He proposes that the mill shall take place on "No Man's Island" about one mile down the river, and guarantees that there will be no interference as the island is not under the jurisdiction of the state, and is partly in Wisconsin and partly in Illinois. He has deposited \$20,000 in good faith and is backed by Chicago local sports.

# PAULINE HALL.

Miss Hall Says Dr. Greene's Nervura Surely Cures.

She Recommends Dr. Greene's Nervura for the Weak, Tired, Nervous and Debilitated. Says It Is the Best of All Medicines.

MISS PAULINE HALL.

Pauline Hall, the actress of long celebrated the world over as the Representative American Beauty, who has in the presentation of the new operatic comedy, "Doreas," achieved the success of her eventful life. In a conversation with a representative of this paper she stated:

"I have in my professional experience essayed a number of roles that have been more or less trying upon the physical and nervous system, but in none that I have attempted have I ever experienced the terrible strain that the various characters which I assume in my new operatic comedy 'Doreas' have subjected me to. The assumption of one character in a presentation is generally considered to be a sufficient undertaking for one person, but in 'Doreas' I assume three, all different, and I might say diametrically opposite to each other.

"The terrible strain naturally resulting from such difficult work, which is a new and direct departure from anything I have ever presented to the public before, naturally had a very distressing effect upon me, and I was constrained to seek some relief from

the mental and physical exhaustion from my labors. After trying several remedies that were recommended to me as being exceptionally good for the nervous exhaustion which I was subjected to, I was eventually induced to make a trial of Dr. Greene's celebrated Nervura, and the great relief which it gave me was almost instantaneous in its effect and I have no hesitation in unqualifiedly endorsing Dr. Greene's Nervura as the best tonic and restorer of a nervous and debilitated system of any remedy that I have ever tested. It is remarkable for the rapidity with which its restorative qualities assert themselves. It is absolutely harmless and the instantaneous relief which it affords to the nervous and tired system is grateful in the extreme. I can readily understand why it is that so many hearty recommendations are given by people of prominence, especially those in our profession, for Dr. Greene's Nervura blood and nerve remedy and my own experience justifies me in recommending it as absolutely the best remedy which I have ever used."

## THE PIPE OF PEACE.

A Mail-Carrier Has a Rather Hard Experience With a Bad Indian.

In July, 1892, Peter Schneider, who is now a policeman in Cincinnati, met with an adventure which he will not soon forget. The Second United States Cavalry, to which he then belonged, were in camp at the big bend of Milk river. Schneider had been detailed mail carrier between the camp and Fort Assinibone. On the way coming he met an Indian at Clear Creek. They exchanged the courtesies of the day, and the redskin, with treachery in his heart, offered the soldier the pipe of peace. They smoked in silence on the roadway for a short time. The Indian asked for a chew of tobacco. Schneider always carried a half pound plug, and pulled it out of his pocket. The Indian took his knife and cut off a small piece from the corner, returning to Schneider, not the large plug, but the small piece which he had taken. The soldier wouldn't have it that way, and compelled him to make the exchange. They were still on apparently friendly terms, however, and there was no occasion for any exchange of hostilities. Schneider asked the Indian for a nearer trail to the fort than the one he had been traveling, and the Indian with whom he had smoked the pipe of peace showed him the way. They separated, and when Schneider had gone about fifty yards something impelled him to look about him. He saw the Indian in the act of drawing a bead on him. Schneider protected himself by dodging behind the horse, slung his weapon from his shoulder and returned the fire of the savage. The latter fled, but turned twice to fire.

Schneider also shot at him, and suddenly the Indian and his horse disappeared from sight as though the earth had swallowed them. Schneider followed, and stood horrified at the brink of a precipice over 200 feet in depth.

## FOR A SPOILED DAUGHTER.

The Elegant Suite of Apartments Set Apart for a Child of Nine.

Here is a description of the suite of rooms occupied by a girl of 9. Her name need not be given. It would be unkind to pillory a child for the sins of her foolish parents. She has a beautiful little sitting room in white and gold. The walls are hung in rose tinted silk and special pieces of furniture have been designed for it, including a small secretary in ormolu, with Sevres plaques, where she may carry on her little correspondence. Here are her toys, the elegant gifts she receives from her friends and here she receives her friends.

Adjoining this is her bed room in satin wood and a little brass couch hung with blue satin curtains. A dressing room is attached and this is the culmination of luxury. The dressing room is quite large. The marble bath is set against the wall. The low marble basin is supplied with perfumed soaps. Sponges of all sizes and sorts hang in silver racks. Perfumed waters in cut glass bottles, cold cream, delicate lotions all find a place. On her bureau are laid out expensive brushes and combs in repousse silver and exquisite toilet bottles and manicure cases of pearl. In one corner is placed a long cheval glass in which she may contemplate her skirts and her dainty footgear. The impropriety of calling this child's attention so specifically to the care of her body is already manifest, and one can only wonder what there will be in reserve for her when she is grown.

## A Cow in a Well.

A cow story comes from East Wallingford, Conn. The cow belongs to George Francis. Tuesday morning the animal jumped over the fence and alighted on a lot of boards that had been laid down to cover an old well.

The weight of the animal smashed the boards and the cow went plunging down to the bottom of the well, a distance of thirty-seven feet. The owner supposed the animal had been killed or at least had its legs broken. A tackle was rigged up and let down and secured around the cow's horns. After much difficulty and with the aid of several men, the beast was dragged out of the well. To the surprise of all the animal was alive. For a short time the cow seemed dazed, but gradually improved and is now reported as being none the worse for her fall.

## Words Fall Right Here.

A young Illinois postmaster, formerly a St. Louisian, received a letter from the deadbeat concern threatening him with dire consequences if he did not at once settle one of the numerous bills he had left behind him in St. Louis. Greatly incensed, he sat down and wrote them a "scorching" letter. The letter was a gem of its kind, dashes predominating all through it. At the same time he wrote a letter to a young lady in the city, a very religious girl, by the way, to whom he was engaged. By some perversity of fate he exchanged envelopes and sent the "scorching" to the young lady. It took three telegrams to get the matter straightened out in the St. Louis office so that the letter reached the proper destination.

## Raising Wild Beasts.

A well-known English writer on zoology says the rapid opening of Africa means the destruction of many wild animals, and zoos will not be able to keep up their stock unless they act promptly in the matter. He recommends that wild beast farms be established in civilized countries to preserve desirable species.

## SICKNESS WITHOUT SYMPTOMS.

A Disease That Doesn't Make You Feel Sick Till Too Late.

Symptoms are Nature's Danger Signals—Bright's Disease Is Dangerous Because Its Danger Signals Are so Weak—Kidney Troubles and How to Cure Them

Bright's disease has no symptoms, That is, of course, it has some symptoms, but they are so common that every one suffers from them more or less.

And yet we have not all not Bright's disease.

We nearly all have headaches. Headaches are a sign of Bright's disease, nervousness, thirst, hot skin, oas of flesh, these are other symptoms. Who would suppose he was seriously sick when he simply had these symptoms?

Yes Bright's disease often has hardly any other, outwardly, and is still one of the diseases most dreaded by physicians.

If it is allowed to run on too long it is incurable. Even in the beginning, ordinary drugs are often unable to help it.

But Dr. Hobb's Sparagus Kidney Pills will cure all cases of Bright's disease if taken before the kidney's are so worn out that renewing them is impossible.

Most sicknesses are caused by the kidneys, because it is the kidneys which are supposed to keep the blood pure.

When the blood is impure, it causes just the same symptoms as mentioned above for Bright's disease.

If, when we are sick, we would take Dr. Hobb's Sparagus Kidney Pills, we would cure Bright's disease if we had it, and in any case we would purify our blood and relieve the symptoms which made us feel sick.

Hobb's Sparagus Kidney Pills are made from the roots and stalks of the asparagus plant under a special process.

They have a tonic and healing effect upon the kidneys. They repair the effects of overwork, worry, excesses, etc. They strengthen and nourish the organs and give them new vitality.

Kidney troubles caused by wounds or bruises can be cured with Dr. Hobb's Sparagus Kidney Pills.

The kidneys filter our blood. They keep it pure and free from poisonous matter.

When our blood is impure we suffer from Bright's disease, diabetes and other kidney diseases, and from rheumatism, gout, anaemia and other blood diseases.

The cure would be to take Dr. Hobb's Sparagus Kidney Pills.

By curing the kidneys we would make them purify the blood, and thus would cure all kidneys and blood diseases from which we might be suffering.

Dr. Hobb's Sparagus Kidney Pills are for sale by all druggists, or will be sent to any address by mail, prepaid on receipt of price, 50 cents per box.

Valuable pamphlet on the subject mailed free on request. Hobb's Medicine Co., Chicago or San Francisco.

## Crockett's Boy-Life.

When S. R. Crockett was a boy on a farm in Little Duchrae, in Scotland, he spoke the Scotch dialect that Burns has immortalized—even the exact words of the poet, according to Mr. Crockett's statement. He has been an author for nine years, and now, at 34, famous on two continents, he is, in physical appearance, a veritable giant, broad-shouldered and six feet four inches in height. It is cheerful to hear Mr. Crockett's asseveration, made to an interviewer, that the Scotch are not thrifty as a race, but on the contrary very extravagant.
